Highlighted projects

ALC - A simple mobile responsive personal side project *in progress* built to reach a bigger audience and ease the process of gathering donations for the Adventist Learning Center. ALC provides quality education to Syrian and Kurdish Refugees living in Beirut, Lebanon, and I was one of the international teachers who volunteered there before transitioning into tech.
- GitHub Link, Live Website
- Tech stack: Ruby on Rails, SCSS, Stimulus.js, PostgreSQL.
- Deployed to Heroku and images stored in Cloudinary.

EDUCATION

Microverse   September 2021 – May 2022
Remote Full-stack Web Development Program, Full Time.
- Spent 1000+ hours mastering full-stack development and simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

Free University of Tbilisi

International Relations, Middle-East Studies   September 2013 – July 2017

- Demonstrated great skills in acquiring new languages: Arabic, and French.
- Took an active part in interdisciplinary interactions within the university and was awarded as one of the best presenters at the conference.
